## The Guest Experience

Guests exit the elevator and proceed down a corridor. A scientist emerges from a door, begging for help. **The scientist then suddenly flies upwards, presumably pulled into a portal by SCP-106.**

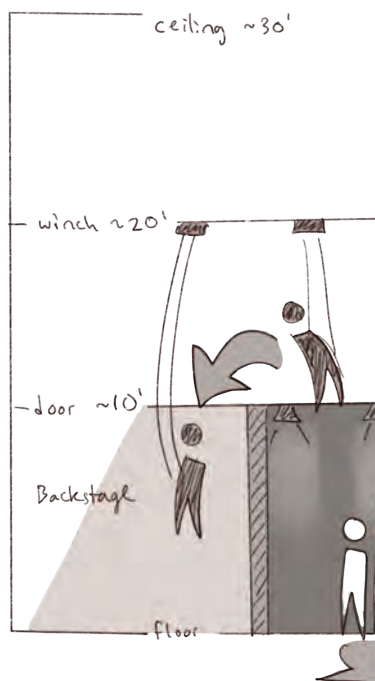

## Timeline

Second 0	Second 2	Second 5	Second 10	Second 14
Scientist emerges from the door.	Scientist begs guests for help; door shuts.	Scientist flies upwards.	Scientist is lowered behind the door.	Door opens; stunt is reset for other actor.

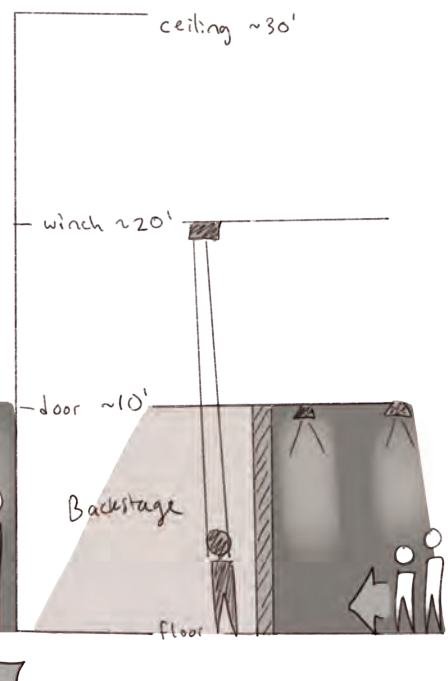

① ACTOR STEPS THROUGH DOOR TOWARDS GUESTS. DOOR SHUTS.

② STUNT-PERSON FLIES UP AND OVER WALL.

③ ACTOR LANDS BEHIND WALL. DOOR OPENS UPON RESET.

## System and Safety

**System:** 3 Foy DW-V3

**Weight Limit:** 200lbs

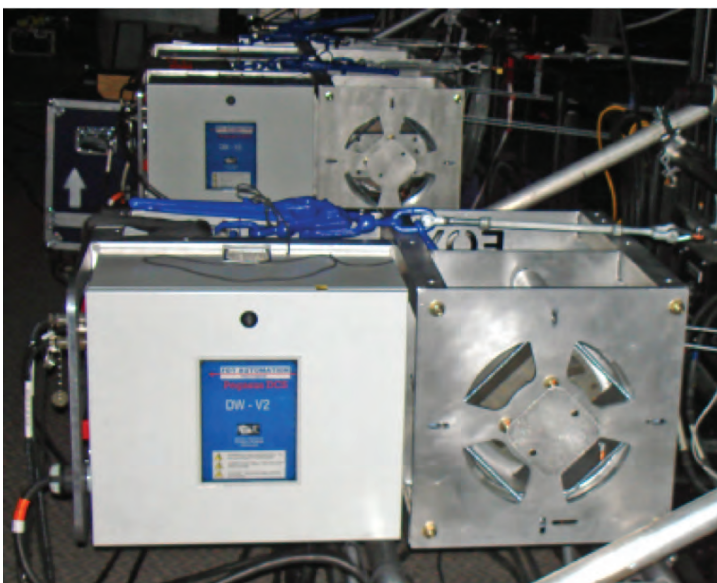

**Speed:** 20 feet-per-second

**Backup System:** 3rd winch available for actor switch-outs.

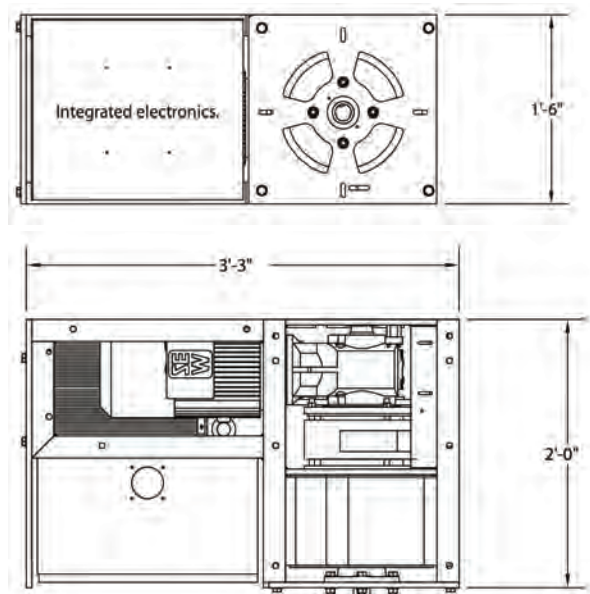

The system is designed to have an actor perform the stunt 10-20 times, then take a break.

**Safety Features:** Cushioned landing area, 2 technicians stationed backstage

**Operational Precautions:** Both technicians must check carabiners prior to anyone flying. Actors may not perform the stunt more than 20 times before a break.
